

## Schottland Privy Council

*Archie #379* Archie Superstars, 2017-08-30 Welcome to Riverdale, the home of everyone's favorite teenager, Archie Andrews - and his closest friends! Dive into these beloved and classic Archie stories, which feature all the elements that have become an important part of pop culture. See the love triangle that includes girl-next-door Betty Cooper and wealthy socialite, Veronica Lodge! Share a burger with Archie's best pal, Jughead Jones! Square off with tough-talking Reggie Mantle! Sit back and enjoy a chocolate shake at Pop's! It's all here for you to enjoy. Prepare to experience wonders of the teens' beloved hometown with stories like The Good Ol' Guys, Double Take, and more!

**Longarm #379** Tabor Evans, 2010-05-25 On a quest for vengeance, Longarm must keep his head above water... When Longarm rides into the usually dry Warhorse, Arizona Territory, torrential storms greet him. But he's only in town long enough to find Ed Galloway, train robber and murderer of Longarm's friend. Then some vigilantes come looking for the well-loved, peace-loving local Marshal Pat Ryan. And Longarm starts to wonder if the star-packer is who he says he is—or if he's got his man. But could a cold-blooded killer be the most popular hombre in town?

*The Trailsman #379* Jon Sharpe, 2013-05-07 This city has no limits. In the remote ranges of Wyoming, Fargo and a work party setting up telegraph lines are bushwhacked, so Fargo takes a posse and gives chase. They end up tracking the killers to a hideout full of vicious men and one wild, willful woman who runs the entire damned gulch known as Hangtown. And if a name like that has ever been earned, the Trailsman knows this is the time.

**Law in the Crisis of Empire, 379-455 AD** Tony Honoré, 1998 This new book by an eminent legal scholar and author can be described in a number of ways: a work of reference; an essay in the study of style; a contribution to the prosopography of the late Roman quaestorship; and a reflection on the fall of the western (and on the survival of the eastern) Roman empire. Using an innovative method of analysis—already successfully employed in his acclaimed *Emperors and Lawyers* (OUP 1994)—the author examines the laws of a crucial phase of the later Roman empire (379-455 AD), a period during which the west collapsed while the east persisted. He allots the laws to their likely drafters and shows why the eastern Theodosian Code (429-438 AD), intended to restore the legal and administrative unity of the Roman empire, came too late to save the west. The book includes a Palingenesia—as stored on an accompanying floppy disk—allowing scholars to read the primary texts chronologically and judge the soundness of the arguments advanced.

Ursula K. Le Guin: Five Novels (LOA #379) Ursula K. Le Guin, 2024-02-20 Together for the first time, all 5 standalone novels from the Hugo and Nebula award-winning writer who reinvented science fiction, including one restored to print. Spans from the 1971 classic *The Lathe of Heaven* to her career-crowning 2008 masterpiece *Lavinia*. This 7th volume in the definitive Library of America edition of Ursula K. Le Guin's works presents 5 remarkable standalone novels that showcase her boundless creativity and literary range. In the Locus Award-winning *The Lathe of Heaven* (1971), one of Le Guin's most admired works of science fiction, George Orr begins having effective dreams: dreams that change reality itself. But when he turns to the sleep researcher William Haber for help, the doctor sees an opportunity to use Orr's strange gift for his own ends. A former Terran prison colony on the planet Victoria seems destined for revolution in *The Eye of the Heron* (1978), when the authoritarian leaders in the City try to assert control over the peaceful farmers who have been sent to live around them. *The Beginning Place* (1980) is a parable-like story in which Hugh and Irena have both found their way to the Beginning Place, a gateway to another world. The two initially become enemies, but must learn to work together when the utopia they've found turns out to have a shadow. The long out-of-print *Searoad: Chronicles of Klatsand* (1991) is a Winesburg, Ohio-like series of linked stories set in a small vacation town on the Oregon coast, where some of the characters have come for a weekend and some for longer, but all are pilgrims in the grip of inexpressible longings. And Le Guin's final, powerfully feminist novel, *Lavinia* (2008), reimagines Virgil's *Aeneid* from the perspective of a woman who, in poet's telling, never speaks a word. Special features include an appendix presenting three essays by Le Guin related to the novels, previously unseen hand-drawn maps by author herself, helpful annotation, and a chronology of Le Guin's life and career. Brought together here for the first time, these 5 remarkable standalone novels showcase a Hugo and Nebula Award-winning master at her very best.

Fractional Programming I.M. Stancu-Minasian, 2012-12-06 Mathematical programming has known a spectacular diversification in the last few decades. This process has happened both at the level of mathematical research and at the level of the applications generated by the solution methods that were created. To write a monograph dedicated to a certain domain of mathematical programming is, under such circumstances, especially difficult. In the present monograph we opt for the domain of fractional programming. Interest in this subject was generated by the fact that various optimization problems from engineering and economics consider the minimization of a ratio between physical and/or economical functions, for example cost/time, cost/volume, cost/profit, or other quantities that measure the efficiency of a system. For example, the productivity of industrial systems, defined as the ratio between the realized services in a system within a given period of time and the utilized resources, is used as one of the best indicators of the quality of their operation. Such problems, where the

objective function appears as a ratio of functions, constitute fractional programming problem. Due to its importance in modeling various decision processes in management science, operational research, and economics, and also due to its frequent appearance in other problems that are not necessarily economical, such as information theory, numerical analysis, stochastic programming, decomposition algorithms for large linear systems, etc., the fractional programming method has received particular attention in the last three decades.

**Shostakovich** Laurel Fay, 1999-11-25 For this authoritative post-cold-war biography of Shostakovich's illustrious but turbulent career under Soviet rule, Laurel E. Fay has gone back to primary documents: Shostakovich's many letters, concert programs and reviews, newspaper articles, and diaries of his contemporaries. An indefatigable worker, he wrote his arresting music despite deprivations during the Nazi invasion and constant surveillance under Stalin's regime. Shostakovich's life is a fascinating example of the paradoxes of living as an artist under totalitarian rule. In August 1942, his Seventh Symphony, written as a protest against fascism, was performed in Nazi-besieged Leningrad by the city's surviving musicians, and was triumphantly broadcast to the German troops, who had been bombarded beforehand to silence them. Alone among his artistic peers, he survived successive Stalinist cultural purges and won the Stalin Prize five times, yet in 1948 he was dismissed from his conservatory teaching positions, and many of his works were banned from performance. He prudently censored himself, in one case putting aside a work based on Jewish folk poems. Under later regimes he balanced a career as a model Soviet,

holding government positions and acting as an international ambassador with his unflagging artistic ambitions. In the years since his death in 1975, many have embraced a view of Shostakovich as a lifelong dissident who encoded anti-Communist messages in his music. This lucid and fascinating biography demonstrates that the reality was much more complex. Laurel Fay's book includes a detailed list of works, a glossary of names, and an extensive bibliography, making it an indispensable resource for future studies of Shostakovich.

**The Central Law Journal** ,1898 Vols. 65-96 include Central law journal's international law list.
