Designing Section 508 Compliant Learning Maureen Orey,2014-08-26 As a learning professional, you want to make sure your courses are accessible to all your learners. Plus, for professionals working with the U.S. government, accommodating learners with disabilities is the law. In "Designing Section 508 Compliant Learning," Maureen Orey explains the legal requirements for accessible learning and outlines how you can use universal design principles to develop courses that employees with disabilities can use. This issue of TD at Work includes: · a brief history of U.S. disability laws · steps for assessing your current programs for compliance · strategies for making learning accessible in face-to-face and online environments · a compliance action plan template.

Archie #508 Angelo DeCesare, New Scoot, Old Coot: Mr. Weatherbee outlaws scooters on school grounds, encouraging the students to put away childish things. How long before the kid in him protests? Ghost Writer: No, Mr. Lodge isn't seeing things -- Archie is determined to write a true-to-life story for class, so he secretly observes him whenever he can! Pop Music: Pop Tate convinces Archie and his pals to take their boy singing group act to the streets, just like he did as a teenage doo-wopper. Will they hit a high note like their idols, In-Sink? Putting In His Two Dollars: Mr. Andrews teaches Archie that handling money is common cents!

Accessibility for Everybody John Mueller,2008-01-01 In today's rapidly changing technological world, it is increasingly important that web and desktop applications be accessible to everyone, including those of us with special needs. However, the legal requirements for accessibility are often convoluted and difficult to understand, making it impossible for most developers to comply with the laws. In the first book on the market to address the topic, Author John Paul Mueller leads you through the maze of Section 508—the congressional law ensuring that all Americans have access to information technology—and offers comprehensive guidance on how to quickly and easily update your applications to conform to Section 508 requirements. To begin, Mueller outlines the Section 508 requirements that are relevant to web and desktop application developers, and explains the laws in language you can understand. Using extensive and varied program examples, Mueller continues on to teach you to write web and desktop applications that not only conform to Section 508 standards, but look forward to ensure long-term universal accessibility for all types of computer users. Specific topics include writing accessible web applications and desktop applications using Visual Basic .NET and Visual C# .NET, developing special application capabilities, using Microsoft and other third-party tools to develop accessible features, developing accessible scripting solutions, and more. The book even includes a directory of helpful organizations, agencies, and resources to help you with any further accessibility concerns you may have.
