Becoming Free in the Cotton South Susan Eva O'Donovan,2010-04-10 Becoming Free in the Cotton South challenges our most basic ideas about slavery and freedom in America. Instead of seeing emancipation as the beginning or the ending of the story, as most histories do, Susan Eva O'Donovan explores the perilous transition between these two conditions, offering a unique vision of both the enormous changes and the profound continuities in black life before and after the Civil War. This boldly argued work focuses on a small place—the southwest corner of Georgia—in order to explicate a big question: how did black men and black women's experiences in slavery shape their lives in freedom? The reality of slavery's demise is harsh: in this land where cotton was king, the promise of Reconstruction passed quickly, even as radicalism crested and swept the rest of the South. Ultimately, the lives former slaves made for themselves were conditioned and often constrained by what they

had endured in bondage. O'Donovan's significant scholarship does not diminish the heroic efforts of black Americans to make their world anew; rather, it offers troubling but necessary insight into the astounding challenges they faced. *Becoming Free in the Cotton South* is a moving and intimate narrative, drawing upon a multiplicity of sources and individual stories to provide new understanding of the forces that shaped both slavery and freedom, and of the generation of African Americans who tackled the passage that lay between.

Davidson's Principles and Practice of Medicine E-Book Brian R. Walker, Nicki R Colledge, 2013-12-06 More than two million medical students, doctors and other health professionals from around the globe have owned a copy of Davidson's Principles and Practice of Medicine since it was first published. Today's readers rely on this beautifully illustrated text to provide up-to-date detail of contemporary medical practice, presented in a style that is concise and yet easy to read. Davidson's provides the factual knowledge required to practise medicine, explaining it in the context of underlying principles, basic science and research evidence, and shows how to apply this knowledge to the management of patients who present with problems rather than specific diseases. The book has won numerous prizes including being highly commended in the British Medical Association book awards. Davidson's global perspective is enhanced by the input of an international team of authors and a distinguished International Advisory Board from 17 countries. Building on the foundations laid down by its original editor, Davidson's remains one of the world's leading and most respected textbooks of medicine. The underlying principles of medicine are described concisely in the first part of the book, and the detailed practice of medicine within each sub-specialty is described in later system-based chapters. Most chapters begin with a two-page overview of the important elements of the clinical examination, including a manikin to illustrate the key steps in the examination of the relevant system. A practical, problem-based clinical approach is described in the 'Presenting Problems' sections, to complement the detailed descriptions of each disease. The text is extensively illustrated, with over 1000 diagrams, clinical photographs, and radiology and pathology images. 1350 text boxes present information in a way suitable for revision, including 150 clinical evidence boxes summarising the results of systematic reviews and randomised controlled trials and 65 'In Old Age' boxes highlighting important aspects of medical practice in the older population. A combined index and glossary of medical acronyms contains over 10 000 subject entries. The contents can also be searched comprehensively as part of the online access to the whole book on the StudentConsult platform. Access over 500 self-testing questions with answers linked to the book's content for further reading. The text uses both SI and non-SI units to make it suitable for readers throughout the globe. A new chapter specifically on Stroke Disease recognises the emergence of Stroke Medicine as a distinct clinical

and academic discipline. A rationalisation of the 1350 boxes used throughout the book gives a simpler and clearer presentation of the various categories. New 'In Adolescence' boxes recognise the fact that many chronic disorders begin in childhood and become the responsibility of physicians practising adult medicine. These boxes acknowledge the overlap 'transitional' phase and highlight the key points of importance when looking after young people. The regular introduction of new authors and editors maintains the freshness of each new edition. On this occasion Dr Ian Penman has joined the editorial team and 18 new authors bring new experience and ideas to the content and presentation of the textbook. An expanded International Advisory Board of 38 members includes new members from several different countries.

Psycho-oncology Jimmie C. Holland, William S. Breitbart, Paul B. Jacobsen, Matthew J. Loscalzo, Phyllis N. Butow, Ruth McCorkle, 2015 Originally published by Oxford in 1998, *Psycho-Oncology* was the first comprehensive text in the field and remains the gold standard today. Edited by a team of leading experts in psycho-oncology, spearheaded by Dr. Jimmie C. Holland, the founder of the field, the text reflects the interdisciplinary nature and global reach of this growing field. Thoroughly updated and developed in collaboration with the American Psychosocial Society and the International Psycho-oncology Society, the third edition is a current, comprehensive reference for psychiatrists, psychologists, oncologists, hospice workers, and social workers seeking to understand and manage the psychological issues involved in the care of persons with cancer and the psychological, social, and behavioral factors that contribute to cancer risk and survival. New to this edition are chapters on gender-based and geriatric issues and expanded coverage of underserved populations, community based programs, and caregiver training and education.

697 (Alexandre Dumas), 2022-07-02 ▶ (English Classics) IV (Celebrated Crimes (Complete)) by Alexandre Dumas (1839) (biography) (historical records) (a historical novel). 18th century, 8th century.

(derring-do), (foul deeds), (close escapes), (glorious victories) (the action adventure novel) (English Classics) (English Classics) (English Classics) B ► (The Borgias), (Beatrice Cenci)(1577~1599), (Urbain Grandier)(1590~1634), (Madame de Brinvilliers)(1630~1676).... ► 18 (He thought he had exhausted the subject of famous crimes, until the work was off the press) : 18 (1839) (which existed in Europe, during the middle ages) (they have the added value of giving the modern reader a clear picture of the state of semi-lawlessness) ► NOTE: Dumas's 'Celebrated Crimes' was not written for children. The novelist has spared no language—has minced no words—to describe the violent scenes of a violent time. In some instances facts appear distorted out of their true perspective, and in others the author makes unwarranted charges. It is not within our province to edit the historical side of Dumas, any more than it would be to correct the obvious errors in Dickens's Child's History of England. The careful, mature reader, for whom the books are intended, will recognize, and allow for, this fact. ► (Celebrated Crimes) (The Fourth Volume) (Urbain Grandier)(1590~1634) : Loudun possessions(1634) (Cardinal Richelieu)(1585~1642) (Celebrated Crimes(Complete) by Alexandre Dumas)(1839) 11 (Urbain Grandier)(1850) ► CHAPTER I. On Sunday, the 26th of November, 1631, there was great excitement in the little town of Loudun, especially in the narrow streets which led to the church of Saint-Pierre in the marketplace, from the gate of which the town was entered by anyone coming from the direction of the abbey of Saint-Jouin-les-Marmes. This excitement was caused by the expected arrival of a personage who had been much in people's mouths latterly in Loudun, and about whom there was such difference of opinion that discussion on the subject between those who were on his side and those who were against him was carried on with true provincial acrimony. It was easy to see, by the varied expressions on the faces of those who turned the doorsteps into improvised debating clubs, how varied were the feelings with which the man would be

welcomed who had himself formally announced to friends and enemies alike the exact date of his return. ▷ 1. 1631 11 26
