LZR-1143: Perspectives Bryan James, 2011-04-17 In a world overrun by the living dead, every victim has a story. These are some of those stories. This collection of six short stories from a world ravaged by the LZR-1143 virus tell the tale of six different people, all of whom fell victim, in different ways, to the deadly plague. From the pilot of a commercial aircraft, overwhelmed in midair, to the lonely soldier stranded high above a world of the undead, the six characters each face their own fears and mortality in different ways. This 20,000 word short-story collection features a unique selection of characters from the original zombie novel by Bryan James, *LZR-1143: Infection*, and from the recently released sequel, *LZR-1143: Evolution*. Each character appears only fleetingly in the longer novels, but each has their own unique thread in the LZR-1143 storyline, all of which are exposed in these short excerpts from their final hours alive. The collection includes *The Pilot*, *The Boy*, *The Inmate*, *The Fry Cook*, *The Subway Passenger*, and *The Sniper*. In *The Pilot*, a commercial aviator sees his last flight end in a way he never could have imagined. In *The Boy*, a family trip is cut short, and a lonely homecoming is not at all as he anticipated. We see the surprising genesis and true identity of a traveling companion in *The Inmate*, while *The Fry Cook* reveals the final moments of a teenage fast food worker. In *The Subway Passenger*, we learn that in the case of zombie apocalypse, you'd probably rather be aboveground. And in *The Sniper*, the surprising truth that there are some fates that cannot be fought, even with a fifty caliber rifle.

A Dame Full of Vim and Vigour Marilyn Bailey Ogilvie,Clifford J. Choquette,2013-12-19 First Published in 1999. Alice Middleton Boring was a remarkable woman who lived and worked in remarkable times. This feisty, head-strong scientist spent her life teaching biology in China, during some of the most tumultuous times in the country's history. Alice found herself continually distracted from science by civil war, revolution, the Japanese occupation, World War II (involving her internment and repatriation), and the upheaval which resulted in the creation of a new, socialist society. Nevertheless, throughout the turmoil she continued to publish scientific papers. In spite of her experiences, she remained deeply influenced by her time in China long after her return to the United States. Loyalty to the Chinese and an almost evangelical appreciation of her adopted culture permeated the rest of her personal and professional life.
