*Virgil Thomson: The State of Music & Other Writings* Virgil Thomson,2016-10-04 An unprecedented collection of polemical and autobiographical writings by America’s greatest composer-critic. Following on the critically acclaimed 2014 edition of Virgil Thomson’s collected newspaper music criticism, The Library of America and Pulitzer Prize-winning music critic Tim Page now present Thomson’s other literary and critical works, a body of writing that constitutes America’s musical declaration of independence from the European past. This volume opens with *The State of Music* (1939), the book that made Thomson’s name as a critic and won him his 14-year stint at the New York Herald Tribune. This no-holds-barred polemic, here presented in its revised edition of 1962, discusses the commissions, jobs, and other opportunities available to the American composer, a worker in a world of performance and broadcast institutions that, today as much as in Thomson’s time, are dominated by tin-eared, non-musical patrons of the arts who are shocked by the new and suspicious of native talent. Thomson’s autobiography, *Virgil Thomson* (1966), is more than just the story of the struggle of one such American composer, it is an intellectual, aesthetic, and personal chronicle of the twentieth century, from World War I-era Kansas City to Harvard in the age of straw boaters, from Paris in the Twenties and Thirties to Manhattan in the Forties and after. A classic American memoir, it is marked by a buoyant wit, a true gift for verbal portrait-making, and a cast of characters including Aaron Copland, Gertrude Stein, James Joyce, Paul Bowles, John Houseman, and Orson Welles. *American Music Since 1910* (1971) is a series of incisive essays on the lives and works of Ives, Ruggles, Varèse, Copland, Cage, and others who helped define a national musical idiom. *Music with Words* (1989), Thomson’s final book, is a distillation of a subject he knew better than

perhaps any other American composer: how to set English—especially American English—to music, in opera and art song. The volume is rounded out by a judicious selection of Thomson's magazine journalism from 1957 to 1984—thirty-seven pieces, most of them previously uncollected, including many long-form review-essays written for The New York Review of Books. From the Hardcover edition.

Longarm #277: Longarm and the Yukon Queen Tabor Evans, 2001-12-01 Longarm's tracking a fugitive—and treading on thin ice! If there's one thing U.S. Deputy Marshal Long can't stand, it's a yeller witness who heads for the hills just when the law needs him most. Harrison Dodge is one such lily-livered sleaze. Privy to Washington's dirty secrets, Dodge realizes he knows too much—and quits the capitol with a one-way ticket. Destination: anywhere. Longarm tries to sniff out the little runt, and finds himself on a boat bound for Alaska. Unfortunately, tip-to-tip, Alaska measures only a mite smaller than the U.S. of A. His only means of transportation is a riverboat, the Yukon Queen, driven by a hot-tempered, fiery lady-captain. Now, not only does Longarm have to keep his eyes peeled for any sign of his fugitive, he must also help his captain ward off her enemies. And try to keep his burning desire for her from melting the Alaskan ice...

*Language, Mind, and Art* D. Jamieson, 2013-03-09 This book is a collection of essays in honor of Paul Ziff written by his colleagues, students, and friends. Many of the authors address topics that Ziff has discussed in his writings: understanding, rules and regularities, proper names, the feelings of machines, expression, and aesthetic experience. Paul Ziff began his professional career as an artist, went on to study painting with J. M. Hanson at Cornell, and then studied for the Ph. D. in philosophy, also at Cornell, with Max Black. Over the next three decades he produced a series of remarkable papers in philosophy of art, culminating in 1984 with the publication of *Antiaesthetics: An Appreciation of the Cow with the Subtile Nose*. In 1960 he published *Semantic Analysis*, his masterwork in philosophy of language. Throughout his career he made important contributions to philosophy of mind in such papers as *The Simplicity of Other Minds* (1965) and *About Behaviourism* (1958). In addition to his work in these areas, his lectures at Harvard on philosophy of religion are an underground classic; and throughout his career he has continued to make art and to search for the meaning of life in the properties of prime numbers. Although his interests are wide and deep, questions about language, art, and mind have dominated his philosophical work, and it is problems in these areas that provide the topics of most of the essays in this volume.
