555 Affirmations from Psalms Maria Maris,2020-01-28 From the Foreword to 555 Affirmations from Psalms -- Positive Lines to Make Your Days Easier, by Maria Maris -- There Is God! I have tasted, I have seen, I know, and do hereby bear witness, that the Lord is good, all the time. Our mighty God is the same yesterday (in the past), today (at present), and

tomorrow (in the future), and what He did for His people of old, He can still do for us today, and tomorrow, and forever. Praise the Lord! While a young girl, as soon as I could read and write, I realized that the old Elizabethan English in the King James version of the Bible wasn't always easy for me -- it didn't have the kind of flow I could relate to with my limited knowledge of the English language then. My parents, of course, never hesitated to give me some of the interesting passages in a modern-day English; and, as I made progress I quickly started 'translating' them myself -- literally putting them in my own words, writing down what the Holy Spirit led me to understand the passages were saying to me. My parents called it the 'Personal Essence' or 'Personalization' of the message. I had so much fun doing it, so much so that by the time I became a young adult, I had done so for nearly every passage in the Bible that interested me, from Genesis, to Revelation. This experience brought me closer to the Lord, and if I were to recount the miracles that have since ensued, this tiny book can't hold them. I hereby share my personal version of some Bible passages from Psalms which have blessed me and become my strong pillar in life, in the hope that they too could bless you. May your days be filled with God's love! And may His peace be with you and yours! -- Maria Maris

German Baroque Music for Mandolin Robert Bancalari, 2018-02-08 The German Baroque period featured three virtuosos—Biber, Westhoff and Johann Jakob Walther. Walther (1650-1717) performed as a violinist in the orchestra of Cosimo III from 1670 to 1674 (Medici dynasty) and served as concertmaster at the court in Dresden. Walther's compositions are contained in two books: *Scherzi da Violino solo con il basso continuo* (1676) and *Hortulus Chelicus* (1688). This book presents six sonatas for violin from *Hortulus Chelicus* transcribed for the mandolin. The collection is a wonderful addition to the classical mandolin repertoire. All the sonatas are written in standard notation and tablature.

Colour and Light in the Ocean Victor Martinez-Vicente, Astrid Bracher, Didier Ramon, Shubha Sathyendranath, Tiit Kutser, 2020-03-26 CLEO publications in Frontiers in Marine Science Foreword Josef Aschbacher, Director of ESA's Earth Observation Programmes Satellite data have drastically changed the view we have of the oceans. Covering about 70% of Earth's surface, oceans play a unique role for our planet and for our life – but large areas remain unexplored and are difficult to reach. Since the 1980s, Earth-orbiting satellites have helped to observe what is happening at the ocean surface. Sensors like CZCS, AVHRR, SeaWiFS and MODIS provided the first ocean colour data from space. Starting in 2002, ESA's Medium Resolution Imaging Spectrometer (MERIS) on-board the environmental satellite Envisat, provided detailed information on phytoplankton biomass and concentrations of other matter in the global oceans. These satellite observations laid the groundwork for studying the marine environment and how it responds to climate change, and the research community has since delivered information on the variability of marine ecosystems. Part of this work is reflected in this stunning collection of peer-reviewed publications presented at the workshop, *Colour and Light in the Ocean* from Earth Observation (CLEO), held

at ESA's ESRIN site in Frascati, Italy, on 6-8 September 2016. The event attracted more than 160 participants from all over the world, including remote sensing experts, marine ecosystem modelers, in-situ observers and users of Earth observation data. Scientifically, the meeting covered applications in climate studies over primary productivity and ocean dynamics, to pools of carbon and phytoplankton diversity at global and regional scales. It also demonstrated the potential of Earth observation and its contribution to modern oceanography. Looking to the future, new satellites developed by ESA under the coordination of the European Commission will further our scientific and operational observations of the seas. With Sentinel-3A in orbit and its twin Sentinel-3B following in 2017, there is a new category of data available for operational oceanographic applications and climate studies for years to come. These data are free and easy to access by anyone interested. Looking at the role of oceans in our daily lives, I am sure that this collection of scientific excellence will be valued by scientists of today and will inspire the next generation to carry these ideas into the future.

TPS Frequency Dictionary of Mandarin Chinese Michael Burkhardt, 2010-05-20 The TPS Frequency Dictionary of Mandarin Chinese is not just another character frequency based dictionary. It has been designed to provide students with a guide for learning new characters, words, and phrases gradually, building upon characters already familiar. The entries have been arranged according to a Triple Progression System in which words are grouped first by character frequency, then by word frequency, and filtered so that new words and phrases appear only after all of their component characters have been introduced.
