Spon's Architects' and Builders' Price Davis Langdon,2006-05-17 Spon's Architects' and Builders' Price Book 2004 is the most detailed, professionally relevant source of construction price information currently available anywhere. With competition growing fiercer throughout the industry and with increasing pressure to obtain a 'competitive advantage', the A and B's unique tender index will be more valuable than ever before. This is the only price book that publishes details of its cost base in such a way that it can be adjusted to allow for market conditions that affect building prices. A separate minor works section on coloured paper covers contracts of around £65,000 in value. The A and B comes with a 'free' CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents and adjust rates and data. This complete package now means that Spon's Architects' and Builders' Price Book 2004 is now better than ever and is a resource that no building firm, surveyor or architect should be without. New features in this 129th edition include: an easier-to-read format; information on, and incorporating, the new CICJ three year wage agreement, effective from Monday, 30th June 2003. It also includes additional items for: hot and cold water piping systems; additional building boards and external wall cladding; further aluminium systems curtain walling; western red cedar external wall cladding; fire retardant steel beams; metal and glazed balustrading; sarnafil roofing and acoustic sliding partitions.
