Island In Chains By Prisoner 885/63 Indres Naidoo,2012-11-01 The island starts slowly moving back; the reverberations in the boat increase; the engine noise gets louder, and we feel the prison dock being torn from us. We are standing, silent, each at his own porthole, having our last look at what has been our home for ten years. There is a strange optical effect: the Island seems to get bigger as we get further from it. First we see only the little dock, then the rocks and bushes at either side and, finally, the whole expanding coastline, a complete island; a green and picturesque stretch of land in the ocean, the harsh monotony of its internal life totally hidden by its outer physical beauty ... Goodbye, Robben Island, may we never see you again, may all who live on your be liberated, may you go to hell, may you sink into the sea and become part of the bitter memories of the past, our past, of the past of apartheid. In 2001, Island in Chains was the runner-up for the prestigious Alan Paton Non-Fiction Prize.

THE KERGUELEN ISLANDS. Geographical nomenclature, however, insists on the name of Kerguelen, which is generally adopted for the group which lies in 49° 45' south latitude, and 69° 6' east longitude. This is just, because in 1772, Baron Kerguelen, a Frenchman, was the first to discover those islands in the southern part of the Indian Ocean. Indeed, the commander of the squadron on that voyage believed that he had found a new continent on the limit of the Antarctic seas, but in the course of a second expedition he recognized his error. There was only an archipelago. I may be believed when I assert that Desolation Islands is the only suitable name for this group of three hundred isles or islets in the midst of the vast expanse of ocean, which is constantly disturbed by austral storms. ► 1. 49° 45' 69° 6' 1772

 WERE THE FIRST.” The story was easy to read. After their separation, the boat had carried Arthur Pym through these
 Antarctic regions! Like us, once he had passed beyond the south pole, he came into the zone of the monster! And there, while
 his boat was swept along on the northern current, he was seized by the magnetic fluid before he could get rid of the gun
 which was slung over his shoulder, and hurled against the fatal loadstone Sphinx of the Ice-realm. Now the faithful half-breed
 rests under the clay of the Land of the Antarctic Mystery, by the side of his “poor Pym,” that hero whose strange adventures
 found a chronicler no less strange in the great American poet! ▷ 0250. “000 000000.” 0000 00 000000. 000 000 0 00 0 00 000 00
